RUSSIANS EVACUATING WARSAW

BECKER IS ELECTROCUTED AT SING SING

FORMER LIEUTENANT OF POLICE DIES WITH PRAYER ON HIS LIPS

Governor Denies Wife's Last Plea; Doomed Man Leads Own Death March

By Associated Press.
SING SING PRISON, Ossining, N. Y., July 30.—Charles Becker was put to death in the electric chair here this morning for the killing of Herman Rosenthal, the New York gambler. The former New York police lieutenant retained his composure and protested his innocence to the last. He went to his death with a photograph of his wife pinned on his shirt over his heart. Three shocks were given before the prison physicians pronounced Becker dead at 5:55 o'clock.

Becker led the way to his own execution. The condemned man sat up all night on the edge of his cot, calmly talking to Deputy Warden Charles H. Johnson.

"I have got to face it," said Becker, "and I am going to meet it quietly and without trouble to any one."

The deputy warden left Becker about an hour before the time set for the execution and when the priests, Father W. E. Cashion, the prison priest, and Father Curry of New York, came to administer the last rites they found the man who instigated Herman Rosenthal's murder with his face resting on his hand gazing at the prison floor. The priests remained with him to the end.

They Gather at Dawn

It was shortly after 5 o'clock when the first witnesses of the execution began to assemble outside the prison walls. Quietly their names were checked off by Deputy Warden Johnson, who directed them to take their places at a gateway that led directly to the execution chamber. Then the witnesses were led to the place of execution in a new death house which had been built adjoining the old execution chamber, where the four gunmen were put to death over a year ago for killing Rosenthal. When the witnesses were seated Deputy Warden Johnson nodded to the principal keeper, Fred Dornier, and they left the room through a small wooden door that led to the death cells beyond where Becker was praying with his spiritual advisors.

Becker rose to his feet when he saw Johnson and took a crucifix from the hand of the prison priest. To Father Curry Becker gave his last message as he took his place at the head of the file of men that marched to the room of death. Becker's message which he uttered to the priest, was:

'Not Guilty,' He Replies

"I am not guilty by deed, or conspiracy, or in any other way of the death of Rosenthal. I am sacrificed to my friends. Bear this message to the world and my friends. Amen."

The one-time police officer hesitated as he entered the execution room. It seemed to the witnesses as if he was startled that the death chair was so near at hand. He looked quickly at the double row of witnesses, glanced at the floor, swept with his eye the whitened walls of the room and then suddenly, as if coming to himself, walked briskly over the rubber mat and seated himself in the electric chair. Behind Becker followed the prison priests chanting a prayer which was repeated by the condemned man.

"Jesus, Mary, Joseph, have mercy on my soul," nervously spoke Becker, as deputy wardens stepped forward and adjusted the electrode. Hardly a minute lapsed before the electrode was applied to the right leg. After the electrode had been firmly adjusted against a shaven spot on the back of the condemned man's head, the state executioner looked at Deputy Warden Johnson, who surveyed the figure that was still mumbling the death prayer in the chair. Johnson half turned his head and the executioner jammed the switch. The first shock lasted a full minute and the executioner said that it was 1850 volts and 10 amperes in strength. It came while Becker was still commending his soul to his Maker.

The two prison physicians stepped forward to examine the collapsed figure that sat supported in the death chair by the thick black leather straps. The stethoscope was applied to the heart and Dr. Charles Farr, the prison physician, pressed his finger against the artery in the neck. There was still a feeble fluttering of the heart.

Third Shock to Kill

The physician stepped back from the rubber mat and again the electric current pulsed through the body. The shock lasted seven seconds. After a hasty examination, Dr. Farr asked that a third shock be given. This lasted five seconds. An examination that took several minutes followed. Three physicians among the witnesses made an examination and at 5:55 o'clock the prison physician announced: "I pronounce this man dead."

During the night Becker penciled his paper what he captioned "My Dying Declaration." It was taken to the warden's office, where two copies were typewritten which Becker signed with his fountain pen in a bold hand.

To Deputy Warden Johnson, who had charge of the execution in place of Warden Thomas Mott Osborne, who does not believe in the death penalty, the one-time police lieutenant gave his fountain pen as a gift.

"It is the last thing that I have to give away and I want you to have it. I want you to give this statement to the newspapers," Becker said.

After his wife had said farewell, shortly after midnight, Becker maintained a casual conversation with Deputy Warden Johnson, who sat beside the screen in front of his cell.

Sometimes he smoked cigars after which he would let his head fall upon his hands and gaze reflectively at the concrete floor for minutes at a time. Dawn found him seated on the edge of his cot, carefully pinning a photograph of his wife on his white shirt just over his heart. Then, as if he desired to

JAPANESE CABINET RESIGNS

Action Follows Bribery Probe by Ministry of Justice

Premier Okuma Holds Self Responsible for Members' Acts

By Associated Press.
TOKIO, July 30, 2:15 p. m.—The Japanese cabinet, headed by Count Okuma as premier, has tendered its resignation to Emperor Yoshihito. This action followed the resignation yesterday of Viscount Kanetake Oura, minister of the interior, following an investigation by the Ministry of Justice into bribery charges resulting from the Parliamentary elections last March. Viscount Oura's resignation was sanctioned by the emperor after a report on the situation had been made to him by Count Okuma.

HOLDS SELF RESPONSIBLE.

Premier Okuma, believing he should hold himself responsible for the acts of the members of his cabinet, was the first to tender his resignation. The other ministers immediately decided to follow the example of their chief. After receiving Count Okuma, the emperor summoned the cabinet members for a conference. A cabinet change at this time is unpopular with the public because of the war.

Two cases have been mentioned as responsible for the crisis. The first was the charge that 10,000 yen (\$200) had been offered Viscount Oura by a candidate for the house, as the price for keeping a rival candidate out of the field. The Minister of the Interior denied having accepted this bribe, but K. Hayashi, chief secretary of the lower house, who was arrested Wednesday, has been quoted as admitting receiving the money and distributing it for campaign purposes.

REPRESENTATIVES INVOLVED.

The second case involves two representatives charged with accepting bribes to desert the Suiyoku, or Conservative party and support the government in its campaign for an increase in the army.

The cabinet members will meet tomorrow and it is considered probable will advise that Count Okuma be invited to retain the office of premier and re-construct the cabinet. The name of Lieutenant-General Count Terauchi, governor-general of Korea, also has been suggested, however, for the post of Premier.

ESCAPED CRISIS.

Japan early this month just escaped a ministerial crisis which grew out of the boycott of Japanese in China. The elder statesman assembled at Tokyo and considered the advisability of certain changes in the cabinet, including the post of foreign minister, believing that the retirement of Baron Kato, incumbent might ease the situation in China and pacify those who blamed Baron Kato for the unfavorable situation in that country.

The fact that former Premier Marquis Saito came out of his retirement and was in frequent consultation caused a great stir and created the belief that he was returned to power.

The elder statesman, however, evidently did not desire to shoulder the responsibility of conducting Japan's future foreign policy and the danger of crisis was temporarily averted by framing a Chinese who resorted to bribery as an answer to what they termed Japan's aggressive political policy in their country.

ENCOURAGED BUSINESSMEN.

Premier Count Okuma made a speech to encourage the businessmen in Japan. The end of the war which he considered still very distant would find the European belligerents exhausted. Japan's foreign trade would benefit even if Germany should be successful, which he said, was not probable. The Premier said he was not fearful of the outcome. Germany would not be able to compete to the far east and he added, "it would not be impossible to make some arrangement with Germany to place the peace of the Orient on a lasting footing."

Several members and former members of the Imperial Diet are involved in the bribery. K. Hayashi, who had been Chief Secretary of the Lower House for twenty years, was arrested Wednesday in connection with Viscount Oura, who was alleged to have received a gift of \$500 from a candidate for membership in the House.

Caminetti and Diggs Cases Transferred

SAN FRANCISCO, July 30.—The cases of Maurice I. Diggs, former state architect, now residing in Berkeley, and F. Drew Caminetti, son of the commissioner general of immigration, who lives in Alameda county, were transferred this morning from the United States Circuit Court here to the United States Supreme Court at Washington. The transfer was automatically made when the defendants were arrested by Attorney Marshall Woodworth. The defendants were convicted of violating the Mann white slave act in connection with the transportation of Lola Norris and Martha Warrington from Sacramento to Reno. Diggs was sentenced to two years and Caminetti to 15 months in the penitentiary.

GENEVA, via Paris, July 30, 3:40 p. m.—A telegraphic dispatch to the Tribune from Lailbach, in Carinthia, says:

"The Austrians attacked the Italians at Gorizia with 170,000 men, including 30,000 Bavarians, on the night of July 28, with disastrous results. The Austrian losses numbered 12,000."

"On the following day a fierce Austrian attack on Carso Plateau also was repulsed."

"The Italians hold all the positions they have captured in the last fifteen days except the advanced trenches before Gorizia, which have been evacuated."

Italians Depart to Fight for King Victor

A little band of 400 Italians, ranging in age from sixteen to forty years, left today for the front. They were bound for New York City, where they will be placed aboard a steamer for their native land and will join in the fight against the Germans and Austrians. This brings the number that have deserted their homes in the local Italian colony in the last few weeks to assist their King in his fight against the Teutonic allies up to more than 200.

The little band which left for the front this morning was formed and fed at the little hall at Fifth and Bush streets last night, when wives and sweethearts met with the men about to depart, and bade them bon voyage. Another party of the local sons of Italy will leave Oakland Saturday night to make their way to the war zone. Many Italians are also leaving San Francisco for the front.

Building and Loan Men in Session

SAN FRANCISCO, July 30.—The officers and executive committee of the International Congress of Building and Loan Associations were selected at the convention here today, and the executive committee was empowered to choose Paris or Berlin, in its own discretion, for the next convention city. A rather lengthy program of addresses had been arranged, but the European war interrupted with the arrival of a number of the speakers, and the only one on the list actually favored was a talk on "Possibilities of the Building and Loan Movement," by Henry S. Rowenthal of Cincinnati, editor of the American Building Association News. Several papers from foreign delegates who could not attend were read by President J. L. Rankin of Columbus, O.

VICTORY CROWNS KAISER'S DRIVE ON POLISH SOIL

By Associated Press.

LONDON, July 30, 12:02 p. m.—Warsaw, the third city of Russia, and the goal for which the German armies in the east have been striving at since October, is at last in the throes of abandonment.

Germans in overwhelming numbers are at the gates of the Polish capital and dispatches both from the city itself and Petrograd say that further resistance would be unwise.

Discounted not only through France and Great Britain, but in Russia itself, the fall of the city is expected hourly, and the problem now is to move the Russian armies intact, menaced as they are from the south by the Austro-Germans, and more seriously from the north, where the German forces are aiming at the railway from Warsaw to Petrograd. This latter menace, the British press admits, is imminent and the hope in the allied countries now is not for the safety of Warsaw, but for the continued cohesion of the Russian army.

DEFENDERS STRIP CITY.

The Warsaw postoffice already has been shifted to some point to the eastward, the populace has been warned to remain calm and presumably for days Russian troops have been stripping the city of everything of military value.

German aviators are hovering over the city, and according to German advices, plans have been completed for the triumphant entrance of the German emperor, accompanied by his consort.

With Warsaw captured, whether or not it proves a conquest of lasting strategic advantage, a great wave of enthusiasm will sweep over Germany and Austria-Hungary and it is predicted here that the armies of the central powers will then seek to force a period of trench warfare in the east, meanwhile throwing a great weight of men and guns to the west, with the idea of resuming the battering toward Calais and progress toward Paris.

3 TRAGEDIES MYSTIFY POLICE

SAN FRANCISCO, July 30.—Another chapter was added to the gruesome story of death centering about Spreckels lake in Golden Gate park today, when the body of an unidentified man was found hanging to a tree 500 feet from the spot where a man and a woman have already been discovered lifeless this week. The fact that all three of those who have met their death in the same locality are unidentified, and the natural theory that each tragedy is in some way linked with the other, has spurred on Coroner Leland and the investigating detectives to extra efforts to clear up the mystifying circumstances.

Whether suggestion due to the stories of the deaths which had already occurred at the lake lured today's victim to choose that spot in which to kill himself or whether he had some part in what may have been a suicide pact of the man and the woman whose bodies lie at the morgue are the questions which are now puzzling the authorities.

FIND CLEW ON BODY.

Today's suicide was a man about 35 years old, evidently a laborer, and having the appearance of being a German. He had light hair and blue eyes. The only possible clew to his identity was found in an address written on a bit of brown paper and bearing the number 123 Twenty-ninth street. There was \$3 in one of his pockets. The discovery was made by Jesse R. Klapp, the Golden Gate Park hunter, who found the body swinging opposite the Thirty-seventh avenue entrance to the park.

Autopsy Surgeon Maguire, after making a general examination of the body of the woman found floating in the lake last evening, discovered that death had been due to a gunshot wound in the mouth. The bullet had penetrated the brain, the point of exit being at the top of the head. Death had come before the body struck the water, as there was no evidence of asphyxiation by drowning.

This discovery makes it almost certain that the woman was the victim either of murder or of a deliberate suicide.

WHOLE ARMY NOW MENACED

LONDON, July 30.—The Times military correspondent in an article published today says:

"At present the great three months' operation against Russia, which was planned by the German chief of staff, General Erich von Falkenhayn, is the most inspiring and in some ways the most brilliant piece of strategy the war has produced. In May, when Von Falkenhayn set going the columns for the reconquest of Galicia, his aim was to place the German armies in the south in such a favorable position with regard to Poland that an enveloping attack upon the Russian central and northern armies could ultimately take place under conditions promising success."

"How far the Grand Duke Nicholas was deceived by the artistic illusion of Paul Fuller in Haiti failed in false directions we do not know, but the attack north of the Niemen now shows itself as most dangerous. It has been cleverly and unobtrusively assembled. It comes when the Russian position is at its weakest."

Members of American Landing Force Are Shot

Patrol Returns Fire of Rebel Snipe Shooters

By Associated Press.
WASHINGTON, July 30.—Two Americans of the landing force from the cruiser Washington were killed at Port Au Prince, according to a message from Admiral Caperton received today.

The members of a patrol were shot from ambush by snipers last night, Admiral Caperton reported. The marines returned the fire and no further disturbance occurred during the night. The names of the killed were withheld at the Navy Department.

The battleship C on a netcut with 420 marines aboard will leave the Philadelphia navy yard tomorrow for Haiti. Stores are being put on the vessel and tonight the marines will go aboard.

The names of the two men killed as announced later are William Gompers, seaman, No. 107 Stockton street, Brooklyn, New York, and Cason S. Whitehurst, ordinary seaman, 608 Clay avenue, Norfolk, Virginia.

HAITIENS DISARMED.

By Associated Press.
WASHINGTON, July 30.—Secretary Lansing announced today that a committee of public safety organized in Port Au Prince, Haiti, has taken charge of the capital and is conducting the de facto government. After a conference with American naval officers and the American charge d'affaires the committee decided upon disarmament of the city, which began yesterday.

With the disarming of Haitian soldiers and civilians at Port Au Prince by American forces, it was believed here today that this was the beginning of the restoration of permanent order in that republic. It was not considered likely that the American marines under Rear Admiral Caperton would be withdrawn pending the establishment of a stable government.

The United States has for some time been considering some move that would give promise of permanent peace. Events that led to the landing of marines, the overthrow of the government and the slaying of President Guillaume—it is believed, will hasten action.

It is thought probable that before withdrawing its forces the United States government will renew its efforts to negotiate a treaty with Haiti for the administration of the customs as in Santo Domingo, with the provision incorporated similar to the Platt amendment in the Cuban treaty whereby the United States would have the right to intervene in the event of disorders. Previous efforts to that end undertaken by Paul Fuller in Haiti failed because he said President Guillaume feared that the people would rise against him if he signed the treaty.

The Navy Department telling of resistance met by his forces in restoring order had not been cleared up early today.

A brief report from Admiral Caperton said he had about 400 men on shore patrolling the town in command of Captain E. L. Beach, who was having no difficulty in maintaining order. The gunboat Nashville was ordered from San Domingo to Port Au Prince today.

ELEVEN KILLED AND SIX HURT IN MINE

SESSION ENDS FOR COLORED WOMEN

Desecration of Jubilee Songs Is Cause for Spirited Protest.

With a final summary of the desires and hopes of the colored woman for the future of her race, the annual convention of the California Federation of Colored Women's Clubs came to a close yesterday. In the evening an elaborate program of songs and music was given, but the real business of the aggregation concluded in the afternoon with the election of officers.

Mrs. Elizabeth Brown of Oakland, who has served as first vice-president during the past year, was elected to that position, taking the place of Mrs. C. H. Dodge of San Diego. Mrs. Dodge, in her turn, was made fifth honorary president. The other officers chosen were Mrs. Minnie Bates, Los Angeles, first vice-president; Mrs. A. W. Garner, second vice-president; Mrs. Jack White, San Diego, third vice-president; Mrs. Betty Tilghman, Oakland, recording secretary; Mrs. Mattie Saunders, San Diego, assistant recording secretary; Mrs. L. V. Stewart, Los Angeles, corresponding secretary; Mrs. C. Howard, Bakersfield, financial secretary; Mrs. A. H. Wall, Oakland, treasurer; Mrs. Fannie Johnson, chaplain; Miss Hazel Brown, Santa Monica, edress; Miss Mattie Hightman, Oakland; Mrs. D. W. Boyer, San Jose.

PLEAS FOR JUBILEE SONGS. Several "movements" were suggested during the afternoon. The Rev. R. D. Jones, pastor of the Central Baptist church, urged the women to start a movement against the "desecration of the jubilee songs," singers with other purpose in view but "to earn a few dollars or to amuse." The Rev. Jones of Vallejo entered the support of the temperance movement. "Co-operation with your leaders" was the suggestion of the Rev. Newman of San Francisco, who described much of the success of the white race in its great undertakings in the backing the leaders are given by the mass.

"All the colored woman wants is a fair chance," said Mrs. A. H. Wall in a talk in the evening. "The progress of the colored race is slow, but it is progress. Our opportunity for education is unequalled in the history of our race. And the work of uplifting our entire negro manhood and womanhood let us extend our sympathy to all classes." The Rev. Kinchen of Los Angeles congratulated the federation for their courageous treatment of the negro in their columns.

ASKED TO SUPPORT PEACE. A final matter before the organization of the federation was introduced as a representative of the white women's federation. "The new platform of the woman's peace party," Mrs. Sanborn who is one of the organizers of the party, urged the co-operation of the colored federation.

This afternoon the new president, Mrs. Elizabeth Brown, was hosted at a reception to the visiting clubwomen. This evening there is to be a concert in Starr King hall, and tomorrow the convention will have an all day tour of the exposition under the guidance of Mrs. D. L. Boardley.

Throughout the conference the audience has been directed with numbers of men, young mothers with small babies, with young girls and aged women with bright eyes. There has been a spirit of earnest, harmonious, and deeply religious and in sympathy with humanitarian movement, especially the care and education of children, in whose hands, they continually emphasized, lies the future of their race.

LIFE OF REVERED PRIEST ENDS AT IRISH RETREAT

REV. FATHER M'SWENEY CALLED

Long Service of Divine Terminated and Former Parish-ioners Mourn.

Death has summoned one of the last of Oakland's veteran Catholic clergy, who built its greatest churches in the early days of the city. News arrived here this morning from Ireland of the death of Rev. Thomas A. McSweeney, former pastor of St. Francis de Sales church, who passed away at his home in Terenure, County Waterford, after several years' illness. Father McSweeney, who was forced to give up the active duties of his parish following his serious illness in 1909, went to his old home in Ireland a year ago. Closely identified with the early history of the city, and with the growth of the church in the early days, Father McSweeney was one of five notable pioneer pastors to whom the credit of Oakland's Catholic churches and their successes is largely due. Of these Fathers McNally, King, Gleason and McSweeney are now dead. The fifth, Father Lawrence Serda, is still in active charge of his parish.

Father McSweeney was a native of Ireland. He was born in Framore, County Waterford, Ireland, in 1853. His family was among the most devoted members of the Catholic Church in a section in which devotion to that church was characteristic and in this was encouraged by the priest in charge of the parental parish. His education, both at home and by the local clergyman and in the schools was directed at the attainment of his purpose.

ENTERS SEMINARY. After leaving the national schools, and after profiting by the education which was volunteered by the parish priest, long since passed away, young McSweeney was admitted to the Seminary of St. Mellary, where he studied for several years. He afterward entered All Hallows' College, Dublin, where he studied theology, and was finally ordained June 24, 1878.

Both in and out of the college Father McSweeney distinguished himself in his studies. His distinction, however, was not attained for the purpose of appearing in the lead to the disadvantage or humiliation of other students, but for the purpose of thoroughly equipping himself for the religious work to which he proposed to devote his life. At the time of his admission to the priesthood he was one of a number of young Irish priests who, aware of the fact that there was a wide scope for their efforts in the field of the religion of their fathers in this country, volunteered to serve in America. The tender of religious services was accepted, and as a consequence, a number of the brightest young priests who ever left homes beyond the seas came to these shores with the deceased and were assigned to parishes and, eventually, to pastorates in various parts of this and other states of the Union. Many of them still survive, and there is none of them who will not hear with regret that the career of usefulness after many years of saintly life of Father McSweeney has come to a close.

His first post of duty was as a curate in the old St. Mary's Cathedral in San Francisco, then at the corner of California and Dupont streets, at which time Most Rev. Archbishop Alemany was in charge of the archdiocese. Although connected with the cathedral, the duties of Father McSweeney extended beyond those of a curate in that parish. He was placed in charge of several missions connected with the cathedral, which he visited every Sunday and holiday in the furtherance of his priestly functions. From those missions have since grown many of the parishes which now contain fine churches and prosperous and devout congregations.

He continued at that post of duty for about five and a half years, when in 1883 he was transferred to St. Mary's Church in this city, which was then under the direction of the late Rev. Michael King. His popularity in San Francisco had preceded him and the young priest immediately found here as enthusiastic in his behalf as were those on the other side of the bay. Here, too, he was a hard worker and an eloquent exhorter. There was a demand for him at the capital city of this State, and at length, at the request of the late Bishop Manogue, who was then bishop of Sacramento,

FATHER THOMAS A. M'SWENEY, FORMER PASTOR OF ST. FRANCIS DE SALES, WHO IS DEAD.

Father McSweeney was transferred to the cathedral in that city.

There he remained for a short time, when there was still greater demand for Father McSweeney in this city and, as a consequence, he returned to Father King's church, Oakland.

HEAD OF NEW PARISH. Preparations, to a certain degree, were made for the inauguration of the new parish by Father McSweeney while he was serving his second assignment to Father King's church, though the active details were until the formal announcement had been made that the new parish was to be established, and that Father McSweeney was to be in charge.

Religious services were held in Hanfain hall, Nineteenth and San Francisco streets, January 21, 1884, and continued to be held there for more than a year, until the first permanent structure of the parish was constructed.

The latter is the imposing building that now stands at the southeast corner of Grove and Twenty-first streets. Originally it comprised two stories, the upper one being devoted to the church, the lower floor being used as a school.

YEAR IN BUILDING. This structure was commenced in 1887 and completed in 1888, and was immediately used for the religious and educational purposes for which it was intended, after the dedication by Archbishop Riordan, February 27, 1887.

Only a few years elapsed when it was decided to make arrangements for the construction of a new and substantial church, and the early realization of this project was made possible by the liberality and devotion of two members of the parish, namely, James Canning and his wife, Mary Canning, who provided a liberal sum for the construction of the new edifice.

The celebrant of the mass at the dedication was a priest of distinguished personality than Cardinal Satolli, the Papal legate. As already stated the sermon was delivered by Archbishop Riordan and the effort was considered, even by those who differed from the religious views of the speaker, to be a masterpiece of eloquence.

In the pulpit Father McSweeney was one of the most effective preachers in the western country. He never appeared before his congregation without having previously made a mental outline of the subject which he was to discuss. He spoke with precision and accuracy. His train of thought was consistent and

continuous. He developed one idea and never returned to it in the onward development of his theme. His voice was sonorous, powerful, commanding and yet musical. He aimed to make men and women better through the channels of religion, and never hesitated to point out to them what he thought should be done and the conduct which prevented them from making use of the graces of righteousness which had been showered upon them.

INTEREST IN CHILDREN. He was especially interested in little children and for them there were special services every day in the week, and, in an especial manner, on Sunday. He was able, readily, to adapt himself to the understanding of the little folk, and there were none of the latter who did not take pleasure in listening to his kindly and fatherly advice.

Personally, Father McSweeney was one of the most gracious of men. Good nature and good heartedness were depicted in every lineament of his face. There was a brightness and a merriment in his eye which irresistibly appealed to every new acquaintance, and told of the purity of motive and the goodness of heart of the man. There was a heartiness in his voice which shamed hypocrisy and deceit, while there was a warmth in the grasp when the hand was extended in friendship. These and other winning peculiarities made friends for Father McSweeney not only among his own people but among those who differed from him in religion and rendered him as popular in private life as he was in the world of religion.

Father McSweeney's illness and withdrawal from the active duties of his parish was assumed by Father F. J. Keane, who is still head of the parish.

Memorial services in honor of the pioneer pastor are now being planned and high honors will be paid the departed clergyman.

The shot was heard by several persons who hurried him to the city and Harbor Hospital. There it was found that the bullet had entered near the right ear and had caused a probable fatal injury. Franzetti was in an unconscious condition and could tell nothing regarding the reason for the attempt at suicide.

PROPERTY VALUES IN ALAMEDA BOOM

Despite Exemption Municipal Assessment Rolls Show Increase.

ALAMEDA, July 27.—The total assessment valuation for the city of Alameda this year is \$21,521,273, according to the figures prepared by City Assessor F. J. Croft. This is an increase of \$1,041,000 over last year, when the total assessment valuation was \$20,480,273. The assessment for this year will be made in \$20,000,000 less the one and one-half per cent allowed for delinquencies. The city makes its tax rate on the real estate and personal property valuations only, while the interest and redemption rate is made on these two with the operative property, which this year amounts to \$1,500,000. The interest and redemption rate, therefore, will be figured on the valuation of \$21,521,273. The total valuation this year compares with the following: Real estate rolls, \$19,350,000; personal property roll, \$1,171,273; total, \$20,521,273. EXILES SELF, AS COURT ORDERED

Fred Westphal, Banished for
Life From Alameda,
Vanishes.

ALAMEDA, July 30.—Fred Westphal, 40, of San Francisco, who admits that an unfortunate case of insanity caused him to get in frequent trouble with the law in this city and Alameda, has mysteriously taken his departure from this city, it is learned, as he is not at his home at 114 Santa Clara street, nor have his neighbors seen him there since yesterday. Efforts to locate him have thus far been unsuccessful, but it is understood that he is ill and under the care of a physician.

Westphal was yesterday ordered by Judge J. L. Weinmann to remain away from Alameda the remainder of his life or to spend three months in the county jail. Both the defendant and his attorney, George Weinmann of Oakland, agreed to a judgment for him to remain away from Alameda for the remainder of his life, and the judge's decision was to that effect.

Dr. Weinmann defends his decision by saying that the defendant arrived to remain out of the county jail. Both he and his attorney, the judge declares, said that Westphal was ill and that if he had to serve a term in jail he could not stand it.

It was either a case of sending him to jail, said Judge Weinmann, or having him remain away from the city. He had been arrested on several occasions and I could not allow him to further disturb the neighborhood with his pranks.

As Westphal was willing to stay away from Alameda I withheld commitment of the case, said the judge. He is ill and needs immediate and persistent medical attention. I think that he will undergo a treatment, as he has been gradually going down hill.

Westphal yesterday pleaded guilty to disturbing the peace of his neighbors. Dr. H. A. Miller, who claimed that he and two women engaged in an orgy at his home, awakening the neighbors and making sleep an unknown quantity.

INTERNED GERMAN SHIPS LIBERED

Action Filed Against Two
Schooners for Bills Incurred
in Oakland Harbor.

Alleging that bills incurred in the internment of two German ships, the Neptune and the Atlas, had not been paid, the United States marshal filed suit against the two vessels in the district court here today.

The federal officers crossed the bay late this morning to take charge of the two boats, which, since internment, have lain in the estuary with only a short crew of watchmen guarding them. The money claimed is for maintenance and crew's wages.

According to the complaint of the United States marshal, the Neptune and the Atlas are due on the Neptune and \$3,000 on the Atlas. This claim, it is asserted in the suit, has not been paid by the United States.

Following the filing of the suit, the ships were released to the federal officers and will be held until a settlement is reached or the papers withdrawn.

DR. MAGER DENIES HIS INCOME IS BIG SUM

SAN FRANCISCO, July 30.—Dr. Hannes Augustus Mager appeared before Superior Judge Flood today, in reply to an order to show cause why he should not be punished for failure to pay alimony to his wife, Lottie Mager, pending a suit for divorce. Mrs. Mager had asked for \$100 a month, alleging that the physician's income was \$400. He informed the judge that he had no such income and stated that he had placed funds in a local bank from which his wife could draw \$50 monthly. The court took the matter under advisement.

Dr. Mager in his action charges extreme jealousy of him.

MARE ISLAND NOTES

MARE ISLAND, July 30.—According to orders that arrived at Mare Island Thursday from the Bremerton navy yard, the hull department alone will have at least \$12,000 worth of repairs to make on the monitor Cheyenne.

The department of repairing the transport Raleigh so that she can make the trip to the Hawaiian Islands this fall, is set at \$20,000 and it will take close to seventy days to finish the job on the vessel.

That Captain A. P. Crist, U. S. M. C., Judge Advocate General, is a hard-fought case with Lieutenant Oak, U. S. N., senior engineer of the San Diego, faces the naval board at the yard next Tuesday is proven by the fact that he has requested Commandant Bennett, U. S. N., to assign two additional stenographers to assist H. E. Poulz.

Mare Island officials have been informed that quite a number of the eastern ship building plants are to bid for the job of constructing one or more of the new navy submarines authorized by the last Congress. Secretary of the Navy Daniels plans to advertise for bids in the very near future according to late advice. The yard will not estimate on the sea ways.

The navy repair ship Prometheus, with the Mare Island radio crew on board, has arrived at Unalaska after a short visit to Dutch Harbor.

The destroyer Hopkins left San Diego Thursday for Ensenada, Mexico, with mail for the flagship Colorado, according to wireless messages received at Mare Island.

The cruiser Albany is on her way to San Francisco again from Bremerton. The vessel passed Eureka Thursday morning.

GALLUR MAY HOLD KEY TO MYSTERY

Prisoners Enthrilled With the
Masterpieces Played by
Murderer.

Conflicting statements made by Damascus G. Gallur, the professor of music, who confessed to the police that he murdered August Hotchkiss, a money-lender, in his home Tuesday, have led the police to the belief that Gallur knows more about the disappearance of the money and jewelry belonging to Hotchkiss than he has been willing to disclose. The detectives went on a lengthy search for the missing jewelry and money yesterday, but investigated the safe deposit vault kept by Hotchkiss in a local bank and his money box and desk at his home with the aid of his widow. No trace of the missing property was found. About \$100 in money and jewelry is still unaccounted for.

Mrs. Gallur visited her husband twice in the city jail since his incarceration and it is probable that she will make arrangements to have attorney A. L. Erick retained to defend him. The defense will probably be based on a plea of emotional insanity. Although Mrs. Gallur believes that her husband had intended to lure her into the house and then to take her life and probably his own, after murdering Hotchkiss, she has come to him in his hour of trouble and the two have become reconciled.

ENTERTAINS PRISONERS.

Prisoners in the city jail are being entertained daily with programs of Beethoven, Mozart, Tchaikovsky and Chopin on the prison piano. Professor Gallur is known as one of the best pianists in the bay region and he was delighted when he learned that there is a good piano in the jail. Hour after hour he has spent playing his favorite masterpieces of classic music, probably for the first time in the history of the city prison has floated out through the bars at the top of the city hall. In a few instances Gallur has consented to play popular ballads and modern music, but for the most part he has soothed his soul with the music of the great masters.

The most incriminating statement made by Gallur since his imprisonment so far as his possible connection with the disappearance of the Hotchkiss jewelry is concerned, was made on the night of the murder. Captain of Inspectors W. J. Petersen.

"About what time did you kill Hotchkiss?" Petersen asked after Gallur had broken down and made a general confession.

"Somewhere between 3 o'clock and 3:15," answered Gallur.

"How do you fix the time?" asked Petersen.

"Hotchkiss pulled out his watch and looked at it, saying that he would not have time to make his run," answered Gallur, referring to the fact that Hotchkiss had stopped off between two runs to go to Gallur's home.

Hotchkiss was an employee for the Southern Pacific Company. When it was found that the body of Hotchkiss had been stripped of all valuables before the arrival of the police in the Gallur home, Gallur was taxed with having taken the property. This he stoutly denied and explained that he had not noticed that he had any jewelry on his person. He denied having seen his watch, which had also disappeared from the body before the police arrived. Hotchkiss is known to have habitually carried between \$1000 and \$2000 in currency. He wore a large diamond ring valued at over \$200 and a diamond scarfpin. When he went to Gallur's home it was by appointment to return to Gallur diamonds valued at \$2000, which he held as security. No trace of any of this property has been found by the police.

PAWNS DIAMOND RING.

Following the murder Gallur left his home in East Oakland and came down into the business district. He sold a diamond ring to a pawn shop in Oakland and asked C. Leclair, a drayman employed there, to call at his home the next day as he had a job for him.

The police believe that he then returned to his home and found that in the meanwhile his stepson, John Gallur, had been in the house. Apparently planning to dispose of the body, he locked the clothes closet in which it had been laid and went to the Melrose business district, where he purchased 40 feet of rope to be used around the trunks in which he apparently planned to enclose the body for shipment. It is while returning home with this rope that he was placed under arrest.

HAD STRANGE MANIA.

A strange mania in the collection of diamonds possessed Gallur. Although he was making but a small amount of money on commission from the piano house with which he was connected, he collected numerous beautiful diamonds, making small deposits to obtain possession of the gems and pawning one diamond which he had obtained by making a deposit to get money to make a further deposit on a more valuable gem.

When arrested he had a beautiful solitaire diamond ring valued at \$750. This ring was formerly worn by Tyler Christian of the Oakland baseball team and was much admired by his friends.

Gallur obtained it from a jewelry company with whom it had been placed by Christian. Gallur told Captain of Inspectors Petersen that he had hoped that by investing his money in diamonds to make a large sum.

ROTHKISS FUNERAL HELD.

ALAMEDA, July 30.—Funeral services for Augustine Hotchkiss, who was slain by Professor Damascus Gallur in Oakland, were held at noon today at the chapel of James Fowler in this city. The rites were under the direction of Stanford Division No. 27, Brotherhood of Locomotive Engineers. W. R. Shea was chairman of arrangements and A. J. Wilson, chief engineer of the chapter, read the service.

Miss Cora Higey sang two selections and the pallbearers were W. R. Hopfield, A. D. Neff, G. W. Randall, John Quinn, Robert Elliott and J. M. Stocker. The body was escorted to San Jose by the brotherhood and interment was in Oakland cemetery.

HUSBAND CHARY.

Complaining that her husband had consistently refused to kiss her, Mrs. Kate Reinhardt has obtained a divorce from John Reinhardt, of 674 Sixteenth street. The couple were married in England in 1904. Plaintiff asks for \$75 per month alimony.

BAGGUS ANSWERS MILLER'S CHARGE

Commissioner Issues Statement of Policies and Practices in Department.

Commissioner Wm. J. Bagbus issued the following statement today:

"Since Mr. Miller read his statement to the board on Thursday, I have taken an opportunity to examine it more carefully. I still feel as I said at the time that he has failed to show his qualifications for the work the board has given him. To properly investigate the engineering work of the city he should show a record of experience extending, but his main claim was five years as superintendent of streets of Oakland not even city engineer when this city was comparatively small. In the last five years he has been in charge of the terminating street yards and, before modern paving problems had been heard of, that sort of experience is more dangerous than useful in the year 1913.

"He also claimed experience as consulting engineer for Oakland on various unspecified occasions. The only report that I can find of his work relates to the quay wall. Since he seems to have satisfied the mayor and the other commissioners, from whom the criticism first came, I have nothing more to say about this at present, except that there is nothing in his record to give me confidence in his judgment on these questions.

"CLAIM PREPOSTEROUS.

"As to his claim that he should have credit for locating the western seawall far enough west to give the city hundreds of acres of land for warehouse sites, this is preposterous. The present location of the seawall involved a change in the government bulkhead line, or a permit to fill beyond. The suggestion occurred to several members of the city government and the commercial bodies apparently at the same time, and was quite generally discussed prior to the bond election.

"The insinuation that the pavements built since I have been commissioner of streets is a failure, is to know his words, more clearly designed solely to deceive this council. Since I took office, July 1, 1911, we have built seventeen miles of permanent pavement. From July 1, 1912, to July 1, 1913, during which period we have charged all asphalt repairs to their year's construction, we have spent \$147,133 repairing the pavements constructed in 1911 to 1914, inclusive. This is mainly replacement of trenches cut by the department for various purposes and repairing worn edges to meet new work. With one exception, an experimental piece of asphaltic concrete, the most durable of the Twelfth street dam, all of these pavements are in excellent condition today. Repairs will be nominal for many years. Any one can verify this condition. I can furnish a complete list of these repairs at my office. The most important are: Seventh street, Bay to Fallon; Webster street, Water to Thirteenth; Third street, Fourth, Fifth and Sixth, all from Broadway to Harrison; Twelfth street, Jefferson to Market; Thirteenth and Fourteenth streets, Clay to Market; Thirteenth street, Webster to Fallon; Franklin street, Fourteenth to Twenty-second; Broadway, Thirtieth to Broadway; Terrace, Telegraph avenue, Fortieth to Fifty-second; Grove street, Fortieth to Berkeley line; Grand avenue, Harrison to Cove; East Fourteenth street, Thirtieth to Fifty-fifth avenue; San Pablo avenue, Emeryville to Berkeley; Jackson street, Twelfth to Nineteenth street.

TERMS CONTRASTED.

"On the other hand, during Mr. Miller's five years as superintendent of streets, apparently about one and a quarter miles of bitumen pavement were constructed. Presumably the plans and specifications were drawn by the city engineer, not by the superintendent of streets. However, he claims credit for the pavements, and claims that they are excellent streets today at practically no cost for maintenance. 'Practically no cost for maintenance' on this mile and a quarter has meant \$2612.00 from July 1, 1914, July 1, 1915. Clay street has had its full share of this maintenance. Prior to 1912 repairs were not charged to the year of construction, but I know these pavements had been extensively repaired for several years previously. This had had more to do with their present condition than Mr. Miller's efforts to see that the mixture was properly 'cooked,' which apparently was the principal part of the inspection in those days.

"As I have said before, I welcome any

A eugenic bureau, at which perfect parents and parents-to-be will be registered, tagged and put in competition for blue ribbons; where a chart of points of efficiency of fathers and mothers will be kept, and where ratings will be made of infants from perfect parents, will be advocated by Dr. J. H. Kellogg, of Battle Creek, Mich., at the convention of the National Conference of Race Betterment, to be held next week.

The first sessions of the conference will convene in San Francisco, but will hold its final session in the Oakland Auditorium on Saturday evening, August 7. Dr. Kellogg is to be one of the principal speakers, and will strongly urge the establishment of such a national bureau in the cause of race betterment.

An important feature of the Oakland portion of the program will be the presentation of a morality masque in the Auditorium on Saturday evening. The first sessions of the conference will be held at the inside Inn at the Exposition, but the final and strongest program will be in this city.

More than 200 young women from investigation into my department. What I object to is a political investigation at the city's expense by a man who has a personal interest in its outcome. That he has a personal interest is clear from words in his own statement and from his actions in connection with the Twelfth street dam. If the city is to pay for an investigation, it should be by impartial, competent persons, not residents of Oakland. Possibly the money would be well spent at least it would settle some points of dispute."

MISS LOUISE JORGENSEN, WHO WILL PORTRAY "ENLIGHTENMENT" AT RACE BETTERMENT "MASQUE."

Oakland and Berkeley will participate in the morality masque, which is a trenchant allegory portraying the advance of mankind toward perfection. The struggle with war is a dramatic arraignment of the European conflict now raging, although the viewpoint is non-partisan.

Among the young women who will have strong parts in the masque are Miss Louise Jorgensen of Oakland, who will portray "Enlightenment"; Miss Ruth McKissick, Miss Erma Beasley and Miss Ruth Wynblach.

PLAN SERIOUS WORK.

The race betterment conference is a national body of scientific men and women intent upon raising the standard of the race through the intelligent application of eugenics and euthenics. It comprises in its membership such eminent men as David Starr Jordan, Luther Burbank, Sir Horace Plunkett, former minister of agriculture for Ireland; Professor

Irving Fisher of Yale University, Dr. Charles Elliot, president emeritus of Harvard; Gifford Pinchot, former United States Forester; United States Senator Robert L. Owen of Oklahoma; Governor Woodbridge N. Ferris of Michigan and others of equal prominence.

Among those who will have an active part in the forthcoming conference are David Starr Jordan, who will discuss "Eugenics and the War"; Luther Burbank, "The Fundamental Purpose of Sex"; Dr. J. H. Kellogg, superintendent of the Battle Creek Sanitarium, "The Eugenic Register"; Paul Popenoe, editor of the American Journal of Heredity, "Natural Selection in Man."

As an incentive to healthful physical competition, the conference has arranged an athletic pentathlon, in which several hundred school boys from Oakland, Berkeley, Alameda and San Francisco will take part.

HOTEL MEN WILL PLAN ADVERTISING

Oakland - Berkeley Association to Meet With Officials This Evening.

Mayor John L. Davis and Commissioner H. F. Jackson will meet with members of the Oakland-Berkeley Hotel Association this evening and discuss plans for the general advertising campaign for the cities on the eastern shore of the bay, in an effort to bring more of the exposition visitors, who are coming from all parts of the world to visit Oakland, Berkeley and Alameda, to the general scheme of advertising.

The meeting is to be held at the request of officials of the hotel and apartment house organization, who desire to join in the general scheme of advertising and other members of the city administration to make Oakland one of the best advertised cities on the coast. An advertising campaign will probably be organized at the meeting tonight.

Joseph M. Kelley and other members of the board of supervisors will also be present at the meeting, as will representatives from all of the city and commercial organizations of the city. It is planned to inaugurate an advertising plan, to be put into effect in the summer of this morning, and suffered severe injuries to his back, which were

WOODMEN COMMITTEE HOLDS MONTHLY RALLY

The regular monthly rally of the Alameda County Executive Committee, Woodmen of the World, occurred in Cypress Camp, Hayward, on the 27th inst. The hall was filled with members of Cypress Camp, and an enthusiastic meeting resulted.

The Alameda county executive committee is composed of five delegates from each of thirteen camps in the county and one from Richmond. Cypress Camp of Hayward and Old Orchard of San Lorenzo are the only camps outside Oakland, Alameda and Berkeley which are affiliated with the committee, but an effort will be made to include all the camps in the county and Hayward will probably be the point from which the work will be directed.

President Spear of the committee conducted the exercises and also acted as toastmaster. Past Consul Peter Wilcox, Banker A. W. Bean, George Oakes, and Commander J. R. Rosenberg, J. H. Armstrong and Elmer Walsh spoke of the advancement of the order and the important part Cypress Camp intends to play in increasing the number and personnel of the camp. Of the committee, E. Holliday, secretary, President Spear, James B. Allen, Lester Rosenberg and several others made talks upon the same line. The rally terminated with a banquet, which was heartily appreciated.

REV. PALMER TO SPEAK ON PEACE VS. MILITARISM

"Peace-at-Any-Price vs. Militarism," or "Must We Be Either Mollicoddlers or Jinkoes?" will be the subject of Mr. Palmer's Sunday evening address at Plymouth Church. Many of us have had the opportunity of hearing Colonel Roosevelt, Mr. Bryan, Chancellor Jordan and Dr. A. K. A. on the peace question, all within the last few days. Mr. Palmer has taken the pains to hear each of these distinguished men and to listen to them as sympathetically as possible. Sunday night he will express their point of view. Wherein do they agree? Wherein do they differ? What is a plain commonsense American citizen to think about it all, anyway? Suppose we disagree with all of them?

Plymouth Church is located on Piedmont avenue, near Moss ave. and Sunday evening service begins at 7:45 p. m.

WAR UNHINGES MIND OF DETAINED FATHER

WASHINGTON, July 28.—Rudolf Malik, an Austrian arrested by federal officers several weeks ago for sending a threatening letter to President Wilson and a postal card threat to the general of Austria-Hungary, was acquitted by an instructed jury verdict on grounds of temporary insanity. DESPONDENT YOUTH COMMITTS SUICIDE

George E. McClellan Kills Himself in a Stockton Hotel.

STOCKTON, July 29.—George E. McClellan Jr., a printer, aged 27, took a large dose of potassium cyanide at an early hour this morning in his room at the St. Elmo hotel, located on Main street and died instantly. Deputy Coroner Men Warren, who was notified after the death, found the body of the dead man stretched out on the bed. McClellan arrived in Stockton last evening from Sacramento and secured a room at the hotel. He was seen by him last seen of him alive.

Papers in his possession showed that he had been employed until recently on the Sacramento Tribune and that his father, George E. McClellan Sr., is a pressman on the Los Angeles Tribune. The father was not and the coroner is holding the body until the parent is heard from.

The dead man was acquainted with several members of the Stockton Typographical Union and they will investigate the case and if McClellan is in good standing at the time of his death, the union will take charge of the remains and be directed by the father of the deceased in the matter of interment.

Local members of the Typographical union speak in the highest terms of McClellan and were greatly shocked when informed of his death.

The inquest will be held this afternoon.

RICH GROWING TRACT IS AWARDED HEIRS

SACRAMENTO, July 30.—Judge P. J. Shields gave a judgment yesterday whereby 127 acres of the Twelfth-street road, now valued at \$300,000, due to reclamation work, passed to the Elizabeth E. C. English heirs and J. M. Henderson as trustees of the estate. The Twelfth-street road property had been sold by Walter Bassett, former trustee, to Dr. A. M. McCollum for \$22,000. Judge Shields said that this was then a fancy price, but he held that Bassett had no authority to sell the property and that McCollum should not have been permitted to bid on it.

TRAIN DERAILED; BLAZE FOLLOWS

Four Men Burned to Death in Railroad Accident in Ohio.

GRAFTON, O., July 30.—Four unidentified men beating their way to Cleveland were burned to death and the town was threatened with destruction by fire last night when a big four freight train was derailed and eighteen of the cars caught fire and were consumed.

The department called from Elvira extinguished the flames. For a time it was feared that two tank cars, one containing alcohol and the other gasoline, might explode, and people living in homes near the tracks removed their household goods and sought places of safety.

The four victims were riding on the tank car, which was in the center of the train of fifty cars. One of the

trucks of the tank car left the track and the cars behind it piled up on top of it. They were buried under the wreckage, which caught fire before they could be rescued. They were burned to death.

GRAFTON, O., July 30.—Zora Wilson, 15-year-old daughter of John Wilson, yesterday testified against him on a murder charge for the slaying, on June 6, of Monroe Brinkley, her sweetheart. Miss Wilson dealt a blow to the defense when she declared in her testimony that, although her father had warned her against accepting the attentions of Brinkley, no such warning had ever been given the young man. Her mother and brothers heard her testify.

MANCHESTER, Mass., July 30.—Edmund T. Dana, grandson of the poet Longfellow, announced last night he had been dismissed from his position as assistant professor of philosophy at the University of Minnesota. The action was taken by the faculty according to a letter received by Dana from the dean of the college of science, literature and art, because of his "lack of regard for common usage and lack of discretion necessary for a teacher" in publicly discussing the suicide by drowning of his wife, Jessie Holliday Dana, at Nantucket six weeks ago.

Dana said he had no protest to make against his dismissal.

geographical conditions. It is obviously not fair that a ton of merchandise shipped from San Francisco to Chico should go at the same rate as a similar quantity of merchandise shipped from Oakland to the same point. The East Bay region deserves a cheaper rate due to elimination of the bay carriage. It is a common feeling on this side of the bay—and circumstances might be named in support—that San Francisco is fighting against our appeal for an equitable differential. If we are to pull together in good fellowship San Francisco ought to yield the point. Similar allowances are made elsewhere; ultimately they will be made here, whether San Francisco consents or not.

THE CANADIAN LOAN.

The Canadian Government has sold \$40,000,000 five per cent bonds to a syndicate composed of J. P. Morgan & Co., Brown Brothers & Co., the First National Bank and the National City Bank of New York City. These securities will be offered for sale to the public about August 1. The notes all mature in one and two years, but prior to the date of the maturity the holders may exchange them for 5 per cent, twenty-year bonds of the Dominion, free of the Canadian income tax.

It is stated that the proceeds will be used to defray expenditures upon public works and undertakings under construction in Canada. It might be argued that Canada's borrowing in the United States might aid the English money market and thus be considered indirectly as a war loan.

The outstanding feature, however, is that the loan is the first one ever made in this manner by the Canadian Government, which heretofore has done its outside financing in London. Provinces and municipalities have floated bonds in this country but the Dominion government has not done so. The loan should do much to cement closer than ever the financial relations of Canada and the United States.

These ten years and more preachers and professional moralists have been double-damning the automobile as a prolific source of moral mischief. Particularly and with emphasis it has been announced as a foe to Sunday observance and particularly to church attendance. Now comes the Rev. Charles P. Chalfant, D.D., of Boise, Idaho, in an address at Oakland yesterday before the "Lord's Day Congress," with the testimony that the motor car has "done wonders in bringing the farmer into the house of God." Of late, said the Rev. Chalfant, "the rancher with his machine is finding his way into the house of worship on Sunday, whereas, under the old conditions, he overlooked his devotions. Sunday observance is made possible to many by the motor car." The Rev. Chalfant deserves and will receive, no doubt, the thanks of all the "gasoline rows" throughout the country.

Installment No. 2 of Mr. Faulkner's studies of Oakland's civic development in recent years appears on the second title page of today's Tribune. It presents many interesting facts. In the last ten years Oakland has built 213 miles of streets, 213 miles of sidewalks and 196 miles of sanitary and storm sewers. Within the same period it has made over into modern streets many thoroughfares which ten years ago were little more than country lanes. The present total mileage of Oakland's streets is 534, sidewalks 715, sewers 405. It has cost up to date \$17,500,000 to equip Oakland with streets and sidewalks. It is a big bill, but our fine street system is worth the money. In tomorrow's Tribune Mr. Faulkner will write of the schools of Oakland.

A story in last evening's Tribune to the effect that one Fred Westphal had been "banished from Oakland for life" reads like a page out of medieval history. None the less it is a cold fact. Under suspension of sentence, Westphal was given leave to betake himself elsewhere upon penalty of enforcement of the sentence in case he should return. This worthless fellow, man and boy, has been a pest to the Oakland public and police for well nigh thirty years. His propensity for mischief of minor kinds is incurable. He was first a bad boy; then he was a vicious young man. Inheritance of wealth augmented his capabilities of annoyance. Loss of wealth confirmed him in evil ways. At last, let us hope, we are rid of a nuisance.

It is easy to sympathize with the state of mind of Mrs. Katherine K. Louderbach of Oakland, who yesterday lodged a charge of "murder" against one Francis Gallagher for killing her terrier dog "Danny." It is likewise easy to believe Mrs. Louderbach's assertion that "Danny" had "more than average human intelligence" and that as a protection against burglars he was "worth two policemen." The Tribune is on the side of Mrs. Louderbach. Hanging would be hard on Gallagher, but manifestly one who aims at a bird and kills a good dog is in need of corrective treatment. Hanging will do, but we would prefer something more lingering.

Profoundly interested in projects of race betterment, The Tribune none the less has little sympathy with the projects of the eugenicists. The idea that we ought to apply to the human race the same methods enforced in the breeding of domestic animals goes too far and cuts too deep. It would eliminate most of the considerations that have led up to the real betterment of the race. Nature has her own methods of selection and our laws and customs as they exist are in reasonable harmony with them. Better leave individuals to do the selecting and mating. Civilized man will not accept the breeding-farm idea as applied to racial development.

Three days ago anarchy seized the city of Port-Au-Prince, Hayti. There was rioting in the streets and among others the President of the republic was killed. Promptly a force of United States marines was landed from one of our warships to "protect Americans and other foreigners." The job was quickly done and without bloodshed. Why in the name of common sense do we apply this kind of medicine in Hayti and refrain from applying it in Mexico? It would not be easy to discover any essential difference in the conditions of the two countries.

Under the caption, "TWENTY YEARS AGO TODAY," the TRIBUNE yesterday published a paragraph saying that Mayor Davie "made his debut as a bicyclist." The Mayor says the bicycle is more convenient than a horse and buggy in making inspections. It would have been a happy coincidence if we could have published that he took his first ride in his \$3000 automobile yesterday. It could have been cited as showing that the Mayor is a fair expression of the progress of the times.

Mayor Davie is entirely right in refusing to comply with a demand that the San Francisco-Oakland Terminal Railway be stopped from operating trains in Twelfth street. If Oakland is ever to come into her own she must promote rather than discourage transportation. She must encourage rather than deny privileges of this sort. That part of Twelfth street through which trains of the San Francisco-Oakland Terminal Railway are operated is naturally and distinctly a "business zone." Property owners in the long run will gain rather than lose as an effect of this traffic.

THE STATE PRESS

Projectiles.
The mule is the only deadly weapon the projectile of which is discharged from the breech.
No special brand of courage is exhibited by the man who has a mile high. The man who falls 10 feet is just as dead as he they put him on.
The stock never knew what hard work was until the King of Spain got married.
—San Jose Mercury-Herald.

Sweet Auburn.
The proposed lateral of the State Highway from Auburn to Nevada City is shorter and more feasible than the one proposed between Marysville and Nevada City. This is the opinion of the State Highway Commission given out last Monday afternoon after hearing the arguments of the Yuba committee in favor of the last named route—Grass Valley Union.

Pleasure?
A woman speaker at the social party congress in San Francisco asserted that the high cost of living had little to do with the decreasing birth rate in American families. Those who seek an understanding of the intimate facts of human life will probably agree with her conclusion. Indeed, it does not go far enough. She might well have said that the high cost of living has practically nothing to do with the birth rate. Father does the cost of high living—with its tax on the time and physical resources of men and women, its false ideals of pleasure and its atrophying influence on conscience and sense of duty—affect the birth rate.—Stockton Record.

Back-Water.
The recall of George B. Finnegan as secretary of the Nevada County Promotion committee is being talked on the grounds that he is not boosting properly. It is alleged that Finnegan goes around the street with a dampened handkerchief over his head, thus giving forth the idea that Nevada City climate is unusually hot.—Nevada City News.

VARIETIES.

MY DOG.
His just plain yellow, no "blue ribbon" breed.
In disposition—well, a trifle gruff
Outside his "tried and true." His coat is rough.
To bark at night and sleep by day his creed.
Yet when his soft brown eyes so dumbly plead
For one caress from my too-busy hand,
I wonder from what far and unknown land
Came the true soul, which in his gaze I read.
Whence all his loyalty and faithful zeal?
Why does he share my joyous mood and gay?
Why mourn with me, when I perchance do mourn?
When hunger pressed why scorn a bounteous meal
That by my side he may pursue his way?
Whence came his noble soul, and where its bourn?
—Anna Hadley Middlemas, in the Boston Herald.

United States Drug Opportunity in Paraguay.
Owing to war conditions abroad and consequent diminution of exports from European markets, there is an excellent opportunity to increase the sales in Paraguay of American drugs. There have been practically no drugs imported from European markets since the beginning of the war and the stocks on hand are beginning to run short.
The total value of importation of drugs and chemicals to Paraguay during 1913 was \$297,978. Of this total the United States furnished \$70,190 worth. In 1914 the total value of drugs and chemicals imported was \$228,576, of which \$80,925 worth was imported from the United States. This is a substantial increase of importation from the United States during a year when the value of importations in every line was far below normal.

Oil Refinery for China.
It is reported at Peking that rapid progress has been made with regard to the prospecting of the Chinese oil fields in Shansi province, and that arrangements are being made to carry out refining. It is expected that the oil will be put on the market in the northern provinces at the end of this summer, and it is expected that within three years its sale will be pushed all over China.

Docking the Legislators.
It is quite likely that the payment of \$400 a year to M. P.'s will be stopped for the period of the war. The contention seems to be that in view of the necessity for economy and retrenchment in all branches of the public service the House of Commons should set the example by passing a resolution to discontinue the payment of salaries of members, providing at the same time that where a member was in receipt from private sources of an income not exceeding £400 per annum the salary of £400 should continue to be paid. It was pointed out that many men and women were willingly devoting far more time to public service at present without payment than were members of Parliament.

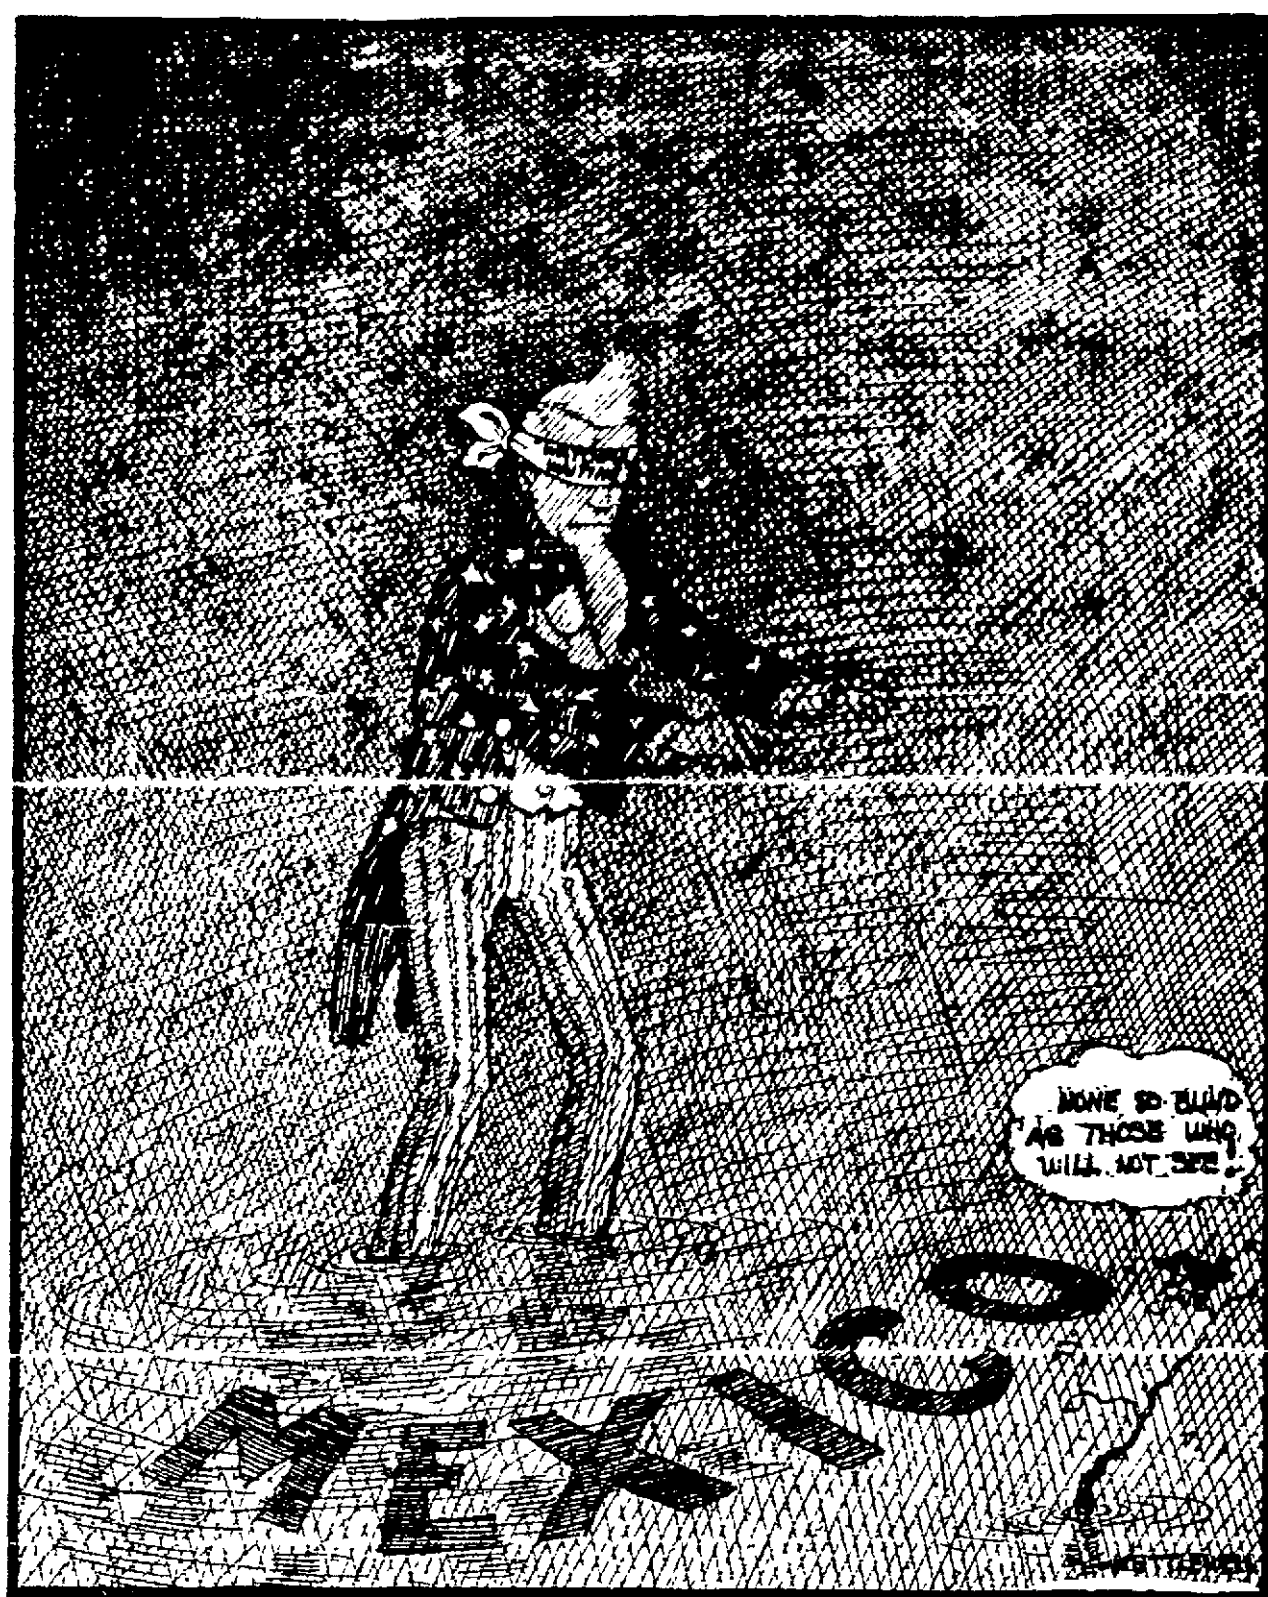

A Kentucky Editor Retorts.
Eighty-eight million gallons of whisky were made in the United States last year. Who drank it all?—Leslie's Weekly.
We sincerely hope it hasn't been drunk. If the American nation has degenerated to the extent of drinking whisky less than a year old, then all the mean things the Germans have said about us must be true.—From the Madison (Ky.) Hustler.

The Purchases From Japan.
Comparison of the statistics released by the Yokohama and Tokyo Foreign Board of Trade of the export of tea from Japan to the United States for the seasons May 6, 1914, to April 22, 1915, with those for the season 1913-14 show an increase of 1,049,745 pounds. The total export to the United States for the season 1913-14 was 28,207,670 pounds, and that for the season 1914-15 was 29,257,415 pounds.

IT MAKES A DIFFERENCE.
They lived together side by side

From wind and cold and rainy days.
But she neither smiled nor thanked him.
Because—well, let that pass!
For she was but a pansy prim
And he—a blade of grass.

If Staged.
Governor Broder of Michigan has threatened to cut the throat of State Senator Russell according to recent newspaper misstatements. If the two gentlemen would fight it is the event sought to prove a great drawing card.—Berkeley Gazette.

IN THE DARK!

NOTABLE PERSONS.

Sir Cecil Spring-Rice, the British ambassador, and Lady Spring-Rice left Washington last night for a fortnight's rest at their summer residence on the north shore of Massachusetts.

TWENTY YEARS AGO TODAY

The Institute of Applied Christianity held another of its interesting meetings last night to discuss the union of church and state. Before H. L. Chamberlain read the paper of the evening, four members were voted in and one name proposed. The singing was led by Mr. Lloyd, and A. A. Denison read an extract from William Watson's "An Ideal Popular Leader." Mr. Chamberlain then gave his interesting and well prepared paper. He spoke of early governments in regards to the church and state being united or ununited.

WAR PREPARATION URGED BY PARKER

Noted Democrat Makes Plea
for Better Coast Defenses
and Greater Army.

SAN FRANCISCO, July 30.—A plea for better coast defenses and an increased army and navy was made by Judge Alton B. Parker of New York, who was the guest of honor last night at a banquet given at the New York building at the exposition by the New York commission.

The welcome of the exposition was extended to Vice-President M. H. de Young, who said the distinguished visitor is a high tribute. Introduced by Norman E. Mack, chairman of the New York commission, Mr. de Young said that there was a strict rule maintained by exposition officials not to talk politics when appearing in a formal capacity.

"But," he added, "I am bringing greetings to Judge Parker, not a politician or a Democrat, but because he is one of the leading men of our country; one of those men who has risen by his own brain and character to be a great American."

Referring to "the recent utterances of two distinguished Americans on the subject of war and peace," Judge Parker said that he wanted to speak in encouragement of the efforts to secure greater armed preparedness.

"We are following with loyal hearts, but with bated breath, the negotiations of our President with Germany," said Judge Parker. "There is not a man here who does not realize that the United States may at any time be plunged into this war."

TIME FOR ACTION.
"This is, indeed, the time for action. Do we want to be found in the same predicament as China, with her defenses less than nothing? Shall we leave our great cities—San Francisco, Seattle and Los Angeles—to be carved from us? With our present weak coast defenses this is not improbable."

"Enemy warships have guns big enough to blow up our land defenses. Congress has far from done its duty. What we need is a liberal sum for the equipment of our coast defenses and a greater army and navy, which will enable us to repel attacks."

GOVERNORS WILL ATTEND CONGRESS

National Prison Reforms to Be
Discussed: Johnson to
Speak.

Governor Hiram W. Johnson will be one of the men who will welcome the delegates to Oakland on September 9 at the convention of the National Prison Congress, which is to be held in the Municipal Auditorium. The governor will make the address of welcome.

In addition, the members of the executive committee in charge of local arrangements, of which Captain William L. Day is the secretary, have assurances that the chief executives of ten other states, mostly Western, will also attend the sessions of the convention.

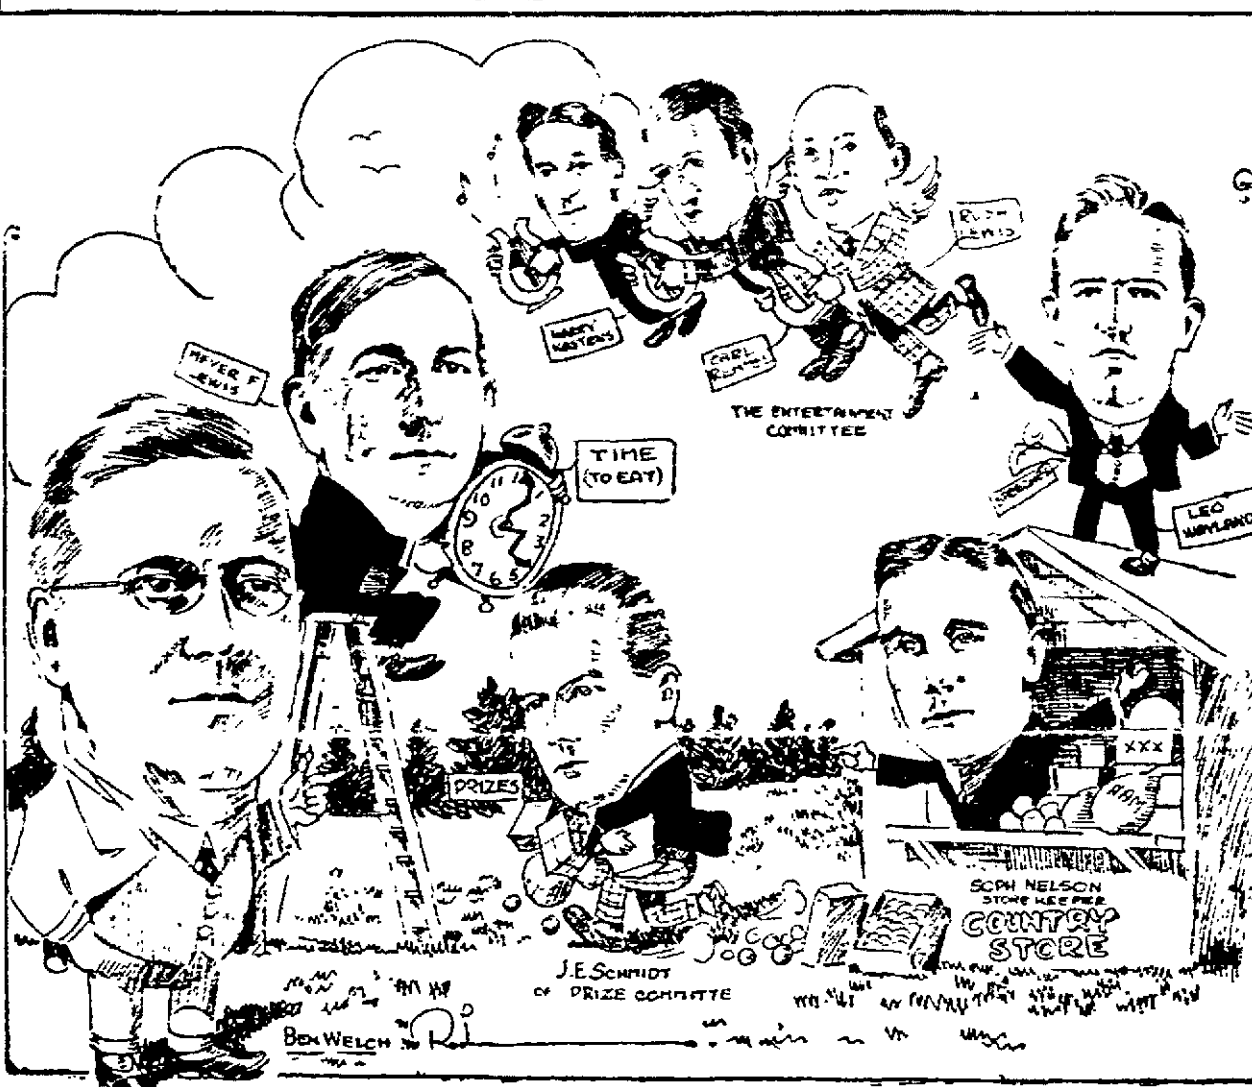

At a meeting today, the members of the local executive committee appointed sub-committees to care for the details of the big meeting. Fully 1,000 accredited delegates are expected to be present. The convention itself is thought will bring at least 5,000 people into the city. It will continue from September 9 to 14, inclusive.

Joseph P. Byers of Cincinnati, president of the Prison Congress, will preside at all sessions. Byers is one of the most prominent in the ranks of those who are working for national prison reforms. He has had wide and varied experiences with prisons, penitentiaries and houses of correction in various parts of the East and Middle West.

A long list of men who have achieved international prominence as workers for prison reform will be on the convention program.

**DESTROYER DAMAGED
IN STORM REPAIRED**
By Associated Press.
SEATTLE, July 30.—The torpedo boat destroyer Whipple, after undergoing repairs at the Puget Sound navy yard for a week, sailed yesterday for Sitka and Dutch Harbor to join the four torpedo boat destroyers that went north last week. The Whipple was damaged by a storm off Port Orford, Ore., and compelled to fall behind.

PARADE TO HERALD JOY-DAY; 'DRUMMERS' WILL CELEBRATE

JINKS CHAIRMAN BEN WELCH AND HIS FELLOW 'JOY ENGINEERS' OF OAKLAND COUNCIL, NO. 394, U. C. T., AS SEEN BY A TRIBUNE ARTIST.

A mammoth automobile parade, headed by Mayor John L. Davis and the officers of Oakland Council No. 394, United Commercial Travelers, will wind through Oakland's principal streets tomorrow evening to herald the 100th anniversary of the U. C. T. order Sunday at East Shore Park. Mayor Davis himself is a member of

the order, it was learned today, and besides having consented to lead the big parade Saturday night he has announced his intention to attend the Jinks Sunday.

Officers and prominent members of the Chamber of Commerce and Commercial Club, Consolidated, also will take part in the parade and attend the festivities at the park.

"Of all the advertisers Oakland has," said Mayor Davis today, "these traveling men are, in my opinion, most continuously 'on the job.' Traveling out of this city all over California and contiguous states, representing Oakland's business houses, jobbers and factories, they automatically

boost the home city elsewhere the minute they register at a hotel."

Speaking for Oakland's commercial organizations, Secretary Joseph E. Calne of the Commercial Club expressed similar sentiments regarding the knights of the grip.

The jinks will open at nine o'clock Sunday morning and there will be "something doing every minute" until 5 p. m. The affair is open to the public, says Ben Welch, general chairman of the picnic committee, who estimates an attendance of over 120 people.

Special street car service on the Richmond line, up San Pablo avenue, has been arranged for by the committee for the jobbers and factories, they automatically

OAKLAND CHORUS AT BEST.
The deep organ tone of the Oakland chorus secured the notice that the local singers were at their best, and as these same voices pulsed forth it was quite evident that each unit had his or her heart in the work. The official verdict will be given this evening by Ernest R. Kroeger. The singers of the Oakland choir, in fact all of Oakland, Alameda county, all of San Francisco's musical population, awaits with interest the decision, though one and all the great assurance from the work of the Oaklanders that this city will be honored with first award. From the Elated members in many quarters could be heard remarks to the effect that the prediction of intonation was vastly in favor of the Oakland singers; and the spirit of the singing, particularly in the Handel "Hear Ye, Oh, Lord," which was indeed earnest, vehement and important.

In the boys' band concert the Oakland aggregation competed against the Columbia Park Players, the Santa Barbara Players. Delighted beyond measure are the Oakland boys players today because of first honors being bestowed upon them. Columbia Park Boys' Band was given second award of \$100 while the third prize, \$100 was given the Santa Barbara youths. To those who saw the earnest faces of the young musicians, noticed

WOULD PROBATE ESTATE OF LUSITANIA VICTIM

SAN FRANCISCO, July 30.—An echo of the tragedy of the sinking of the British steamship Lusitania was heard in the local superior court today when a petition for admission to probate was made in connection with the estate of William Layland. Layland was a buyer for a local company and lost his life when the ship was sunk. He was a resident of San Mateo and a member of Pickwick lodge, Sons of St. George. A will which has been filed is dated April 13 and leaves a small estate to relatives in England. Today a petition was filed by William Spencer.

**GOMPERS REPORTS
STRIKE CHARGES**
By Associated Press.
WASHINGTON, July 30.—President Gompers of the A. F. of L. today reiterated his charge that foreign influences had been working to make strikes in the United States and called upon the workingmen to discountenance any such attempts.

Mr. Gompers made public his correspondence with the Central Federated Union of New York, which investigated a statement attributed to Mr. Gompers that "officers of international unions had received money to pull off strikes in Bridgeport and elsewhere in ammunition factories."

"I never mentioned international unions," wrote Mr. Gompers, "nor did I use the word German, nor did I mention Bridgeport, nor did I refer to ammunition factories. What I did say was that authentic information had come to me that efforts had been made to corrupt men for the purpose of having strikes inaugurated among seamen and longshoremen engaged in handling American products and manning ships for European ports; that the corrupting influence was being conducted by agents of a foreign government and that I had no doubt the same agencies and influences were at work elsewhere with the same purpose in view."

"We should all enter an emphatic protest and frown down upon any foreign interference, no matter by what motive actuated, particularly when that motive is ulterior and to the detriment of the good name, growth and permanence of our great cause."

"That the effort has been made to corrupt some of our men for such a purpose is true."

**BURNS OFF FINGER TIP
BY FIRE IN POCKET**
SAN FRANCISCO, July 30.—W. L. James, a private in the United States Infantry, living at the Y. M. C. A., put his hand in his pocket to take out his knife this morning, set fire to a bunch of matches and burned off the end of his little finger. James was left at home when his regiment departed last week and told the physicians at the Harbor Hospital that as trouble always comes in threes, he wondered what would happen next.

VALUE OF THE CITY'S STREETS
DECADE OF NEW CONSTRUCTION

Annexed Areas and New Traffic Conditions Have Doubled Oakland's Burden of Maintenance and Repairs. 'Economy and Progress' Has Been the Watchword

This is the second of a series of articles telling what city officials have done with \$30,000,000 during the last ten years.

NUMBER TWO
By FREDERICK FAULKNER.

"A city is known by its streets" is the old adage. It is truer today than it has ever been in the past. The new requirements of traffic have brought into practice entirely new ideas of street construction, and caused the abandonment of some old, though one-time sound, ideas. The automobile has decreed that the dirt road and the plain macadam street must go, if the health and comfort of residents along streets are to be preserved.

Building streets is a costly business, and the burden falls directly on the property owners. By acquiring 14 square miles of new area Oakland was faced with the necessity of building new and improving old streets. Likewise it had to build new sidewalks and sewers, the original cost of which also is assessed against the property owners.

In the last ten years the city has built 213 miles of streets, 213 miles of sidewalks and 195 miles of sanitary and storm sewers. The present total mileage of streets is 531, sidewalks 115 and sewers 405.

Based upon net cost of construction and condition, I estimate the present value of the city's streets, sidewalks and sewers at \$17,500,000. The streets also represent an expenditure of approximately \$11,700,000 in first construction cost.

These are pretty valuable possessions, as the value of public property goes. When the streets, sewers and sidewalks are completed the duty of maintaining them passes to

condition, while that strip between the outer rails of the street car tracks is almost a disgrace. It has the appearance in some places of an abandoned road. The city officials place the responsibility for this on the street car companies. By the terms of their franchises the street car companies agreed to keep in good repair the strip of the street between a line drawn two feet outside each outer rail. They claim the street railway people have been requested and ordered to repair their part of the street, but plead lack of funds. The question thus resolves itself into one of law or politics, or both. But it is an unfortunate situation and the responsibility for it should be definitely fixed. If the city is not clothed with the authority to force the public service corporation to fulfill its contract the fault may be traced back to the time of the granting of the franchise. If the fault lies in the apathy of the present officials in forcing the performance of the contract a remedy may be found.

In the immediate past of the city's most valuable property is being neglected, the highest degree of convenience and service is not being rendered, and the reputation of the city is suffering.

Another district where the streets are in a bad state is the older section of the city, along East Fourteenth street, south of Seventh street and in West Oakland, for example. The reason for this is that the streets are not susceptible of temporary repairs. They must be reconstructed. They are the relics of the old macadam period. The matter of reconstructing streets is one between the city and the property owners along the street, though the city may force the work to be done. Both the property owners and the city officials share the blame for this class of bad streets.

It is only just to say that the officials of the street department are not blame-worthy in other of the above-mentioned cases of poor streets. They have been without both authority and money.

BUT GENERALLY THEY'RE GOOD

With these two exceptions the streets of Oakland are comparable to those of any California city and superior to those of a great many cities. As a whole, they are better than those of any city in Northern California. As mentioned above, an extraordinary amount of new work has been necessary during the last ten years, and it has been performed efficiently and economically.

There are 40 miles of asphalt pavement in the sections where heavy traffic must be served. There are over 58 miles of new oil-macadam, 18 miles of which were built during the last 12 months; nearly 105 miles of oil-surfaced macadam; 17 miles of

SEBASTIAN UNION TRACKS, MARKED FOR DEATH BERKELEY PLAN

Chinese Plot to Take the Life of Los Angeles Mayor Revealed.

Competing Suburban Services Are Asked to Occupy Joint Rails.

LOS ANGELES, July 29.—That Mayor Sebastian and four other had been marked for death at the hands of certain Chinese because of the mistaken belief that he would permit one set of gamblers to operate on the city's streets, was one of the sensational developments yesterday in the investigation of a plot of the gamblers to buy police protection by paying a local attorney \$1500 a month. This plot was nipped in the bud by Chief Solvay when he raided a number of gambling places in Chinatown late Tuesday night.

Despite the fact that the spectacular raids supposedly disrupted the alleged plans to take Sebastian's life the Mayor yesterday afternoon took extra precautions to guard himself.

"I was first warned Monday that an attempt would be made on my life," said Mayor Sebastian, "and at that time I did not consider it seriously. Later some white men who are my friends told me of the rumors, and I then began to feel that there might be something in the report. There is no question but there has been a lot of internal wrangling among the Chinese since they began plotting, and I know that they are going to try to do something, but I don't know why they should wish to take my life."

"I know that some of them do not like to see the laws enforced. The frequent raids by Chief Solvay's men have probably irritated them more than usual. If this is true, despite threats, they will be going right after them, and I know that into court whenever and wherever the law is violated."

BERKELEY, July 29.—The New Route and Southern Pacific trains will enter and leave Berkeley on the same line of tracks if plans already reached to the city are carried into effect. Not only would such a plan relieve the congested condition of Shattuck avenue, where in some places there are six tracks, but it would mean much for the safety of citizens, according to those who favor it.

This arrangement Irving and Commissioner F. T. Robinson are known to favor and to have proposed an alternate schedule of train departure from the city, giving from the same main station in Berkeley a ten-minute schedule in place of a twenty-minute one.

Should the railroads agree to the single track proposal the one track would be fenced off for the entire length of Shattuck avenue from University avenue to the Oakland line. As asphalt paving for the roadways would not be needed under this arrangement, it is pointed out that a great saving could be effected to the roads in upkeep costs. It would be no longer possible for automobiles or pedestrians to cross the street at any points except the street crossings, and one of the main causes for accidents in the city would be removed.

While the matter is a long way from final settlement it is being seriously considered by both sides. The alternate train schedule seems certain, it is declared, of adoption and the appeal for the single track from a business standpoint is said to have been favorably received. The many cars that use the narrower east side of Shattuck avenue from Bancroft way to University avenue have long presented to the city officials a problem difficult to solve. Special automobile regulations have been made for the two blocks, from Center to University, and yet many accidents have there taken place. The new administration has recognized the problem as one to be solved and conferences with the railroad traffic men will continue.

Washouts Cut Off Catches 3 Fish; Railway Traffic Here Hangs Tale Heavy Rain in Kansas Story of Mackerel Puts Ananias to Shame

By Associated Press
TOPEKA, Kan., July 30.—Heavy rains were general over Kansas early today and railroads were experiencing difficulty in Leavenworth county. The Atchison, Topeka and Santa Fe Railroad traffic was at a standstill because of the washing away of a bridge at Jarbalo and in Jefferson county because of a washout at Meriden. In Dickinson county, Mud Creek was reported to be more than a mile wide at Talmage.

Rains were heaviest at Manhattan, where 3.51 inches were reported. The Kansas river at Yamego rose 3.2 feet during the night.

Two and a half inches of rain fell at Atchison. Missouri Pacific traffic was delayed by a washout below Atchison.

SANTA MONICA, July 30.—Here is a fish story that is a refreshing departure from those usually contributed by the Santa Monica bay district. Tuesday, while fishing from the municipal pier, Santa Monica, J. M. Silver, one of the daily fishermen, felt a tug at his line. As he pulled in his line, hooked and he lost part of his line, hooks and sinker. The line, it is presumed, became entangled around one of the pilings.

Yesterday morning, F. L. Gibbons of Los Angeles, fished near to where Silver lost out. Gibbons felt a tug on his line. He pulled in his line and every one of his hooks were bare, but he had three fish just the same. He had brought up the line that Silver had lost, and on each one of the three hooks was a mackerel.

BANDITS ESCAPE AS BULLETS RAIN

Discovered in House by Neighbor, Abandon Loot and Flee From Police.

SAN FRANCISCO, July 23.—Two armed bandits with a suit case filled with stolen silverware, were frustrated in an attempt to rob the home of Horace H. Scovel, vice-president of the Scovel Iron Store Company, at 155 Jordan avenue, last night. They escaped by taking refuge in the I. O. O. F. Cemetery after Police Officer Charles Dulles of the Richmond station had emptied his revolver at them.

In an automobile stolen from John Wells of 511 Jones street, the bandits arrived at the Scovel home shortly after 9 o'clock. Scovel was not at home. Their entrance through a pantry window was seen by a neighbor, who telephoned to the Richmond station.

BANDIT TAKES FLIGHT. The bandits had a light burning in the house, but as Scovel reached the back door they took alarm and extinguished it. A second later the policeman saw the men emerge from a side door.

At his command to halt, the men broke into a run and Dulles opened fire. He chased them until his revolver was empty, and the men ran down Geary street and were lost in the cemetery.

Across the street Dulles and Police Officer S. E. Starrett found an automobile containing two overcoats and a suit case bulging with silverware.

It is believed the bandits had planned a systematic robbery of the neighborhood, and had visited several other places. The silverware is thought to have been taken from the home of Edward P. Figel, 104 Palm avenue.

The automobile was stolen from in front of the Cliff House while Wells was dining there.

CHINAMEN GET INTO WRONG MAN'S HOUSE

STOCKTON, July 30.—Members of the Bing Koon and Suiy Bing tong are moving out of the local Chinese quarter and seeking quieter surroundings as the two tong are at odds and shooting is apt to start at any time. Trains coming into this city are being watched and all suspicious looking Celestials are being searched for guns.

A number of Bing Koon men were in such a hurry to get out of Chinatown that they rented a house on South California street. Unfortunately for them, when moving they got into the wrong place. The owner happened along and demanded what right they had in the place. One of the Celestials slammed the door in his face and said something about "No sorry." The owner, who happened to be an Irishman, went to the back door, forced an entrance and the battle was on. Chinamen flew in all directions and their belongings were hurled about them.

After much jabbering the renters discovered their mistake and went into the house which they had rented.

TELLS OF SILENCE IN KILLING; IS ARRESTED

SALINAS, July 23.—Charles Weber, alias Lurch Charles the Timer, the man who is thought to have beaten the train out of J. H. Kaiser with an iron bar last Monday, was captured last week by the sheriff of San Luis Obispo on descriptions sent out by Sheriff Neabitt. When searched, papers belonging to Kaiser were found in a coat he had stolen from the deceased. Weber's capture was due to his boasting to a fellow wayfarer on the road out of Santa Cruz that he had a "noseless" kind of hitting and "nose-punching" an iron bar in a newspaper—and that he was coming to Salinas to "get" a rich retired merchant there. When the news of the murder came out the informant immediately got in touch with the local police.

MARRIED? AH NO! BUT YOU WOULD THINK IT

SANTA ROSA, July 23.—Miss Ruth Cowie and Jack Ranger of Salt Lake who have been waiting at the Santa Rosa Kearsy ranch, will long remember their last. Especially all they remember their leave-taking, for they were liberally and plentifully sprinkled with rice before the train pulled out. In spite of their frenzied appeals that they did not deserve the shower and that there was "nothing to it," their appeals were unheeded, however, and bags of the Celestials' staff of life were scattered over the station platform, down the tracks of the departing ones and through their various grips and belongings.

There were about seven or eight of the practical jokers, and they certainly made things interesting for the two who were leaving. It was fun, fast and curious.

CHARGE JUGGLING WITH MINING CO.

W. S. and B. S. Noyes Accused
of Conspiring to Defraud
Stockholders.

SAN FRANCISCO, July 29.—W. S. Noyes, president of the Noyes Mining Co., and B. S. Noyes, vice president, were charged today with conspiring to defraud the stockholders of the company. The charges were filed by Captain Carl A. Martin of the Second U. S. Infantry and Captain William O. Overton, retired, who are investigating the company's affairs. The Noyes brothers are alleged to have conspired to defraud the stockholders by selling shares of the company at a price of \$100 per share, when the actual value of the shares was only \$25 per share. The charges were filed in the U. S. District Court at San Francisco.

It is alleged that the Noyes brothers, who are both prominent in the mining industry, have been selling shares of the company at a price of \$100 per share, when the actual value of the shares was only \$25 per share. DRUGGED BY EX-SUITOR. SAYS EVELYN ROSENBERG

SAN FRANCISCO, July 29.—Evelyn Rosenberg, wife of Samuel P. Rosenberg, Beau Brummel of America's traveling men, yesterday caused the arrest of J. J. Ramon, an importer, who she charged with drugging her at her in a Broadway restaurant. Rosenberg, equally well known in San Francisco and New York, married J. J. Ramon in 1914. They visited the Exposition in San Francisco on their honeymoon. Rosenberg told a long story of meeting Ramon, a former editor, of taking a ride with him, and finally of being drugged by him in a restaurant. She threatened and drugged in a restaurant.

Yellowstone's Wonders to Be Shown by Travelogue's Art Tribune Tourists to Wander Through This Country's Noted Places With Roberson

"Man's best things are nearest him;
he close around his feet.
But 'tis the distant and the dim he
ever strives to greet."

Nothing is more true in our own country than the above quotation. Until the war abroad blocked tourist paths, Americans generally turned toward Europe in their travels, neglecting or ignoring the many places in our own land which far surpass anything in natural scenery that Europe has to offer. Only with the European war have Americans begun to realize what is in store for them in the United States, and this year more than ever before America and its wonders have come into their own.

Yellowstone Park, that land of Nature's dreams, and the Grand Canyon, one of the mightiest of Nature's creations, are the two most impressive spectacles, and these are to be toured tonight by Tribune tourists in the travelogue by Frank H. Roberson. Roberson promises that nothing he has shown in his picture-tours abroad

have anything like the spectacular features embodied in his travelogue, "America's Wonders."

Wonderful Geysers. Geysers, which have been known and hot water hundreds of feet into the air, are to be found in only one place in the world—Yellowstone Park. A few years ago most geysers in New Zealand and were destroyed by an earthquake. Spouting geysers are to be only one of the many natural phenomena shown by Roberson in this remarkable travelogue. The towering cascades, strange shaped and wonderful colored stone and earth formations, the wild bears, deer and antelope in their natural haunts, will all be pictured in motion and colored views, the latter some of the most remarkable that Travelogue Roberson with his reputation as a photographer and color artist has ever put on a screen.

Nothing in all the world compares with the Grand Canyon of Arizona for its size, color combinations, dangers and mystery. A crystal beside it is dwarfed and insignificant. Even Yellowstone, with its many wonders, must take second place to the grandeur and magnificence unfolded to the tourist as he stands on the "rim" and looks out over the mighty chasm.

The travelogue this evening is different from any other in the travelogue's repertoire, for it is a revelation of Nature's work. To the lover of Nature it is far the most attractive of subjects.

THREE DAYS REMAIN.

Just three more days remain of The Tribune series of picture-tours. With two offerings Saturday and two on Sunday, the popular travelogue will bring his engagement to an end. For Saturday afternoon the subject is France, a tour showing both the militant and the peaceful side of French life. Motion pictures will show Paris taken from an army dirigible, a gunboat in a heavy sea, a battleship in action, soldiers on the way to the front and wartime scenes in Paris and the large cities. A film of special interest will be the fountains at Versailles, erected by that most extravagant of monarchs, Louis XIV., and which this day are so elaborate that it costs the French government \$6000 to keep them in play for one day. Saturday evening is the Allied powers, a combination tour of England, Belgium, Russia, France and Italy; Sunday afternoon, Beautiful Wales, and Sunday evening, Germany and Russia. Admission is 10 and 25 cents with The Tribune coupon. Without the coupon it is 50 cents.

PROBATION FOR LOTTERY MEN OVER ONE PROTEST

Two more lottery sellers were granted probation in the courts today. The men had pleaded guilty and asked for probation. Robert Tyson, probation officer delegated to investigate, found that both men had been reputable citizens for many years, and had excellent standing with their employers and associates. Neither had ever been in any trouble before. One was a barber and the other a bootblack. They sold lottery tickets to the out of their other compensation. The men were arrested in the series of raids inaugurated by Chief of Police W. F. Woods three weeks ago.

All those communicated with by the probation officer recommended in favor of giving the men a chance, with the exception of the police. In his letter replying to queries from the probation officer, Chief Woods said:

"In as much as the city has been put to considerable expense in securing evidence against these men in the lottery cases, and it is impossible that they should have been ignorant that they were breaking the law in selling lottery tickets, I do not consider them entitled to probation and recommend the same be denied."

Samuel Springer, a bootblack, was one of the men. He was given probation by Judge L. B. Warren, clerk of the Department 1. The other was Charles Rimsa, a barber, granted probation by Judge George Samuels.

CONGRESS DISCUSSING RELIGIOUS PHILOSOPHIES

SAN FRANCISCO, July 29.—The religions of the world are being explained, dissected and discussed in scientific investigations at the great congress on Religious Philosophies being held in this city. Today is the second day of the congress, which will close tomorrow.

Dr. C. F. Aked was chairman of "Christian Day," during which different denominations were discussed.

Catholicism was discussed by the Orthodox Eastern church was outlined by Father Sebastian Dabovich, Archimandrite of the Serb branch of that church in North America.

Mormonism and its underlying philosophy was presented by Elder B. Talmadge, M. D., of the Church of Jesus Christ of Latter Day Saints.

The philosophy of Protestant Christianity formed the theme of an address by Professor John Wright Buckner of the Pacific Theological Seminary, Berkeley. The philosophy of Roman Catholicism, which was to have been presented by Monsignor M. J. Lavelle, rector of St. Patrick's Cathedral and vicar-general of New York, was omitted because of the absence of Monsignor Lavelle, who was detained in New York.

In his place Mrs. Anna Rye Mintz elucidated the philosophy of "New Thought."

HOW FRENCH PEOPLE CURE STOMACH TROUBLE

A household remedy of the French
peasantry, consisting of pure vege-
table oil, and said to possess wonder-
ful merit in the treatment of stomach,
liver and intestinal troubles, has been
introduced in this country by George
H. Mayr, who for twenty years has
been one of the leading downtown
druggists of Chicago and who himself
was cured by its use. So quick and
effective is its action that a single
dose is usually enough to bring pro-
nounced relief in the most stubborn
cases, and many people who have tried
it declare they never heard of any-
thing to produce such remarkable re-
sults in so short a time. It is known
as Mayr's Wonderful Remedy and can
now be had at all leading drug stores.
It is sold with the positive under-
standing that your money will be re-
funded without question or quibble if
ONE bottle fails to give you absolute
satisfaction.—Advertisement.
